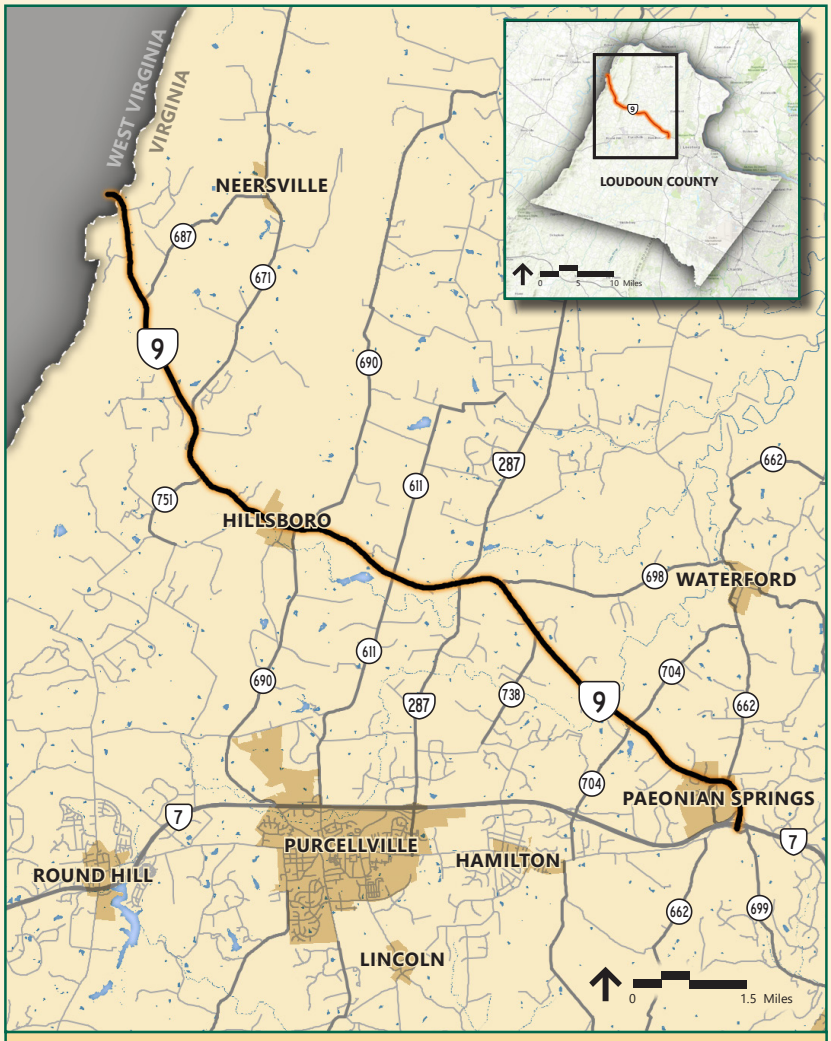
LOUDOUN COUNTY VIRGINIA ROUTE 9

Safety and Operational Study West Virginia to Route 7

Public Input Meeting

Wednesday, September 22, 2021
from 6:00pm - 7:30pm



Please visit the **Virtual Meeting Webpage** to review materials in advance of the meeting

Study Overview

This project consists of a **safety and operational study** of approximately **13 miles of Route 9 (Charles Town Pike) from the West Virginia border to Harry Byrd Highway (Route 7)**. The study will identify safety and operational issues and present recommended solutions for consideration by the Board of Supervisors.

Study Goals

- Assess existing safety and operations conditions along the Route 9 study corridor.
- Engage focus group and community in interactive public workshops throughout the study.
- Identify phased improvements based on the existing conditions assessment, future traffic forecasts, and public feedback.

How to Participate

A public outreach meeting for the Route 9 Safety and Operational Study will be conducted in a virtual manner due to COVID-19 restrictions and pursuant to the ordinance readopted by the Loudoun County Board of Supervisors.

The purpose of this meeting is to present long-term (year 2040) corridor improvement concept alternatives, and to receive feedback and answer questions regarding these concepts as well as the overall study.

Please visit the project webpage **https://www.loudoun.gov/route9** to participate in the virtual meeting, view the presentation materials, complete a survey and provide feedback.

For those with limited internet access, please call 703-737-8299 to request meeting materials.
