**Re: 23219 Evergreen Mills Road**

Dear Mr. Hubbard:

The current location of public sanitary sewer collection system in relation to the above address is 3,675 feet in a direct line traversing four private parcels. As far as proposed work goes, there is a project that has been approved by the Authority and is currently under construction to the south of said property when completed there will be a distance of 3,700 feet traversing two private parcels. Due to the sluggish housing market, projects such as these become lesser a priority to the development community. It is difficult to foresee the future of the facility extensions.

Should you have any questions, please contact me at 571-291-7933 or email [gmcneil@loudounwater.org](mailto:gmcneil@loudounwater.org).

Sincerely,

A handwritten signature in black ink that reads "G.D. McNeil".
